

## Standards Department Advisory

### Re: 456A Welder Practical Assessment Requirements Summary

<b>Updated Notice Date:</b>	July 8, 2022
<b>Original Effective Date</b>	March 1, 2017
<b>Primary Program Areas Affected</b>	<ul style="list-style-type: none"> <li>• Apprenticeship Programs</li> <li>• Trades Equivalency Assessments</li> </ul>
<b>General Trade Status and Information for Welder</b>	<p><b>Trade Code:</b> 456A</p> <p><b>Classification Status:</b> Non-compulsory</p> <p><b>Provincial vs Interprovincial Status:</b> Interprovincial</p> <p><b>In-school Hours' requirements:</b> 720</p> <p><b>On-the-Job Hours' requirements:</b> 5,280</p> <p><b>Scope of Practice:</b>  <i>The Building Opportunities in the Skilled Trades Act, 2021, states as follows:</i></p> <p><i>Welder</i></p> <p><b>146.</b> <i>The scope of practice for the trade of welder includes the following:</i></p> <ol style="list-style-type: none"> <li><i>1. Using and maintaining tools, material handling equipment and welding equipment.</i></li> <li><i>2. Preparing the work site.</i></li> <li><i>3. Laying out, cutting and forming metals to specification.</i></li> <li><i>4. Fitting sub-assemblies and assemblies together and preparing assemblies for welding.</i></li> <li><i>5. Welding using the shielded metal arc welding, gas metal arc welding, gas tungsten arc welding, flux cored or metal cored arc welding, submerged arc welding and plasma arc welding processes.</i></li> <li><i>6. Carrying out special processes such as welding studs and brazing.</i></li> <li><i>7. Controlling for quality before, during and after welding.</i></li> </ol>

**Summary of  
changes as of  
March 1, 2017**

**Assessment and Examination Requirements for Welder as of March 1, 2017:**

- As of March 1, 2017, the trade of Welder requires the successful completion of the Welder Practical Assessment prior to being eligible to attempt the written Certificate of Qualification examination.
- This requirement applies to both Registered Apprentices and Trade Equivalency Assessment Applicants
- Upon successful completion of both the Welder Practical Assessment AND the written certificate of qualification examination, a Certificate of Qualification with a Red Seal endorsement can be issued.

**Description of changes as of March 1, 2017: Implementation of Updated Welder Practical Assessment**

- A practical assessment was implemented as a co-requisite with the written examination for certification purposes for the trade of 456A Welder as of March 1, 2017, in order to meet requirements, set out in the Red Seal Policies and Procedures Manual
- A valid all position welding certificate in Shielded Metal Arc Welding (SMAW) issued by the Canadian Welding Bureau (CWB) or the Technical Standards and Safety Authority (TSSA) is required when requesting a Trade Equivalency Assessment for the Welding trade.

**Practical Assessment Details for Registered Apprentices and Trade Equivalency Assessment Applicants**

All Apprentices and Trade Qualifiers are required to complete a Welder Practical Assessment prior to the written examination. Upon successful completion of both the practical assessment and the examination, a Certificate of Qualification with Red Seal endorsement can be issued.

**Practical Assessment Details for Registered Apprentices:**

- A practical assessment must be attempted during the following Reportable Subjects:
  1. Reportable Subject S0780 - Shielded Metal Arc Welding (SMAW) Practical III Learning Outcome #5 - Shielded Metal Arc Welding (SMAW);
  2. Reportable Subject S0780 - Shielded Metal Arc Welding (SMAW) Practical III Learning Outcome #5 - Shielded Metal Arc Welding SMAW);
  3. Reportable Subject S0779 – Automatic and Semi-Automatic Processes Learning Outcome #4.1 - Gas Metal Arc Welding (GMAW);
  4. Reportable Subject S0779 – Automatic and Semi-Automatic Processes Learning Outcomes #4.2 and 4.3 - Flux Cored Arc Welding or Metal Cored Arc Welding;
  5. Reportable Subject S0778 - Gas Tungsten Arc Welding (GTAW) Practical II Learning Outcome #3 - Gas Tungsten Arc Welding (GTAW);
  6. Reportable Subject S0887 – Thermal Cutting Learning Outcome #S0887.1 Oxy Fuel Cutting (NOTE: this process will be completed in Level 1)
- Upon completion of the welding processes, Testing Centres will deliver the results via email to Skilled Trades Ontario at [practicals@skilledtradesontario.ca](mailto:practicals@skilledtradesontario.ca) and in writing to the client.
- The issuance of a Certificate of Apprenticeship is not dependent on the apprentice successfully completing the welder practical assessment during their apprenticeship. However, Apprentices that do not successfully complete the practical requirements during their in-school training will have to ensure they have been completed prior to attempting the written examination. A Certificate of Qualification will not be issued until they have shown proof of completing the practical requirement and have passed the written examination.
- An individual is eligible to write the Certificate of Qualification examination in Ontario if he/she has completed an Ontario apprenticeship training program established by Skilled Trades Ontario and completed the Practical assessment requirements.

### **Practical Assessment Details for Trades Equivalency Assessment Applicants (Non-Apprentices)**

- Individuals going through the Trade Equivalency Assessment (“trade qualifiers”) will be required to complete the Welder practical assessment at a designated testing centre in the province and will submit proof of completion with the Trades Equivalency Assessment application. This is necessary in order to be approved to write the written examination.
- Trade Equivalency Assessment applicants must complete six (6) welding processes in a 6 hour practical assessment:
  1. Shielded Metal Arc Welding (SMAW - 3G)
  2. Shielded Metal Arc Welding (SMAW - 3F and 4G)
  3. Gas Metal Arc Welding (GMAW - 1G)
  4. Gas Tungsten Arc Welding (GTAW - 2G)
  5. Flux Cored Arc Welding (FCAW - 3F and 4G)
  6. Oxy-Fuel Cutting
- Experienced Welders who have proof of current corresponding CWB or ASME certifications ('tickets') for any or all Tests 1 to 5, are only required to complete the missing component(s) and the Oxy-Fuel Cutting component of the practical assessment. 'Current' is defined as within a two-year period of the examination application date.
- Welding Testing Centres have been set-up across the province for Trade Equivalency Assessment applicants to register to complete the testing. When a centre has between three (3) to six (6) registrations a practical examination will be scheduled.
- Upon completion of the welding processes, Testing Centres will deliver the results via email to Skilled Trades Ontario at [practicals@skilledtradesontario.ca](mailto:practicals@skilledtradesontario.ca) and in writing to the client.
- Upon successful completion of the Practical Assessment, the Trade Equivalency Assessment applicant will submit the results with their application for a Trade Equivalency Assessment.
- As Welder is a non-compulsory trade, holding and maintaining a valid Certificate of Qualification is not legally required;
- An individual is eligible to write the Certificate of Qualification examination in Ontario if his/her application has been approved through Skilled Trades Ontario Trade Equivalency Assessment process.

### **Process to Schedule Practical Assessment**

The applicant will schedule the Welder Practical assessment at a Testing Centre by directly contacting the centre and register to be on a waiting list.

1. Pay the practical assessment fee directly to the Testing Centre. Please note each Testing Centre determines their assessment fees.
2. Complete the practical assessment and obtain a copy of the results to attach to the Trade Equivalency Assessment application.
3. Send in the Trade Equivalency Assessment application to Skilled Trades Ontario.
  - If his/her application has been approved through Skilled Trades Ontario Trade Equivalency Assessment process, they will be able to attempt the written Certificate of Qualification examination (see process outlined above).

Welding Test Centres have set been up across the province for Trade Equivalency Assessment applicants to register to complete the Assessment. Once a testing centre has a minimum of three (3) to a maximum of six (6) registrations the practical examination will be scheduled.

The following Testing Centres are available for the Welder Practical Assessment:

**GTA Region**

Institute of Technical Trades  
749 Warden Avenue  
Scarborough, ON  
[practicalsitt@gmail.com](mailto:practicalsitt@gmail.com)

**Eastern Ontario**

UA Local 71  
1250 Ages Drive  
Ottawa, ON  
[practicals@ualocal71.com](mailto:practicals@ualocal71.com)

Durham College  
2000 Simcoe Street North  
Oshawa, ON  
[practicals@durhamcollege.ca](mailto:practicals@durhamcollege.ca)

St. Lawrence College  
2 St. Lawrence Drive  
Cornwall, ON  
[skilledtrades@sl.on.ca](mailto:skilledtrades@sl.on.ca)

**Northern Ontario**

UA Local 800  
1640 Bancroft Drive  
Sudbury, ON  
[sud-practicals@ualocal800.com](mailto:sud-practicals@ualocal800.com)  
Sault Ste. Marie  
[ssm-practicals@ualocal800.com](mailto:ssm-practicals@ualocal800.com)

UA Local 628  
969 Alloy Drive  
Thunder Bay, ON  
[local628@tbaytel.net](mailto:local628@tbaytel.net)

**Southwestern Ontario**

UA Local 527  
225 Frobisher Drive  
Waterloo, ON  
[practicals@ua527.com](mailto:practicals@ua527.com)

Technical Training Group  
428 Forman Avenue  
Stratford, ON  
[info@technicaltraininggroup.org](mailto:info@technicaltraininggroup.org)

Mohawk College  
481 Barton Street  
Stoney Creek, ON  
[practicals@mohawkcollege.ca](mailto:practicals@mohawkcollege.ca)

UA Local 67  
195 Dartnall Road  
Hamilton, ON
