APPRENTICESHIP PROGRAM SUMMARY/GUIDELINES

1. **Program Definition: Facilities Mechanic** is defined as a person who:

• is responsible for day-to-day operational maintenance and custodial care of industrial, institutional, commercial and multi-residential buildings.

FACILITIES MECHANIC is an approved apprenticeship program for the purposes of the *Apprenticeship and Certification Act, 1998* (ACA).

2. Program Guidelines

• On-the-Job Training Duration (for apprentices)

The Industry Committee has identified **5520** hours as the duration generally necessary for any apprentice to become competent in the skills required. There may be individual circumstances in which the duration varies from this guideline.

• In-School Training Duration

The Industry Committee has identified **480** hours of in-school training as the duration generally necessary for an apprentice to complete the in-school curriculum for this program, except where an apprentice has been exempted from any level of that curriculum.

Ratio

The Industry Committee has identified a journeyperson-to-apprentice ratio of one journeyperson or individuals who are deemed equivalent to a journeyperson status to one apprentice as the ratio generally necessary for an apprentice to be properly trained on the job in this program. There may be individual circumstances in which the ratio varies from this guideline.

3. **Program Requirements**

• Restricted Skill Sets

This program does not contain any restricted skill sets as per Ontario Regulation 565/99, Restricted Skill Sets. Therefore, an individual is not required to be a registered apprentice or possess certification in order to perform skills contained in the program.

Academic Standard

The Industry Committee has identified the minimum academic standard for entry to this program as completion of Grade 12 or ministry-approved equivalent.

(See ACA Policy 102, Confirming Academic Requirements.)

• Eligibility for Exam Challenge (for Non-apprentice C of Q Applicants)

The challenger must:

- provide proof of competency in all mandatory (unshaded) skills as identified in the Training Standard or Schedule of Training;
- demonstrate that he or she has acquired **6000** hours of on-the-job training.

(See ACA Policy 150, Assessing Applicants for the Certificate of Qualification.)

• Eligibility for Program Completion (for Apprentices)

The apprentice must:

- achieve competency in all mandatory (unshaded) skills as identified in the Training Standard or Schedule of Training;
- complete the in-school training as outlined in the industry and ministry-approved Curriculum Standard.

(See ACA Policy 309, Completion of an Apprenticeship Program.)

• Other Resources

Complete program requirements, policies and standards can be obtained by referring to the following resources:

- Apprenticeship and Certification Act, 1998 (ACA)
- ACA General Regulation 573/99
- ACA Exemption Regulation 566/99
- Program-specific Apprenticeship Training Standards or Schedules of Training
- ACA Program and Policy Manual

• Other Required Certification

N/A

• Academic Background

Industry has identified relevant secondary-school course(s) likely to increase an individual's chances of success if completed before program entry. For details, see the document Apprenticeship Subject Pathways.

COMPETENCY ANALYSIS PROFILE Facilities Mechanic – 255W

(All unshaded skill sets must be demonstrated/completed.)

SKILL SETS

SKILLS

DEMONSTRATE SAFE WORKING PRACTICES AND PROCEDURES	Comply with safety directives	Wear and maintain personal protective equipment	Practise good housekeeping	Handle hazardous and toxic workplace materials	Practise fire safety procedures
5070.0	5070.01	5070.02	5070.03	5070.04	5070.05
	Take corrective action against workplace hazards	Work within safe physical limits	Inspect elevating devices and material-handling equipment	Work on equipment in elevated positions	Apply lockout and tag procedures
	5070.06	5070.07	5070.08	5070.09	5070.10
USE AND MAINTAIN TOOLS, EQUIPMENT and DEVICES	Use and maintain hand tools and associated equipment	Use and maintain power tools and associated equipment	Use and maintain measuring devices	Use and maintain testing and troubleshooting devices	Inspect hand and power tools and equipment
5071.0	5071.01	5071.02	5071.03	5071.04	5071.05
	-				
EMPLOY JOB INFORMATION RESOURCES	Determine in-house operation and maintenance requirements	Interpret electrical, mechanical and structural blueprints	Communicate with co-workers	Write reports	Maintain service documents
5072.0	5072.01	5072.02	5072.03	5072.04	5072.05
	Prepare work orders				

PERFORM PREVENTIVE MAINTENANCE	Provide administrative support to	Perform scheduled preventive maintenance	Coordinate outside contract inspections		
	scheduled maintenance				
5073.0	5073.01	5073.02	5073.03		
Diane an Ever		T	I	I	
INSPECT FIRE SAFETY EQUIPMENT	Inspect fire safety systems and equipment	Inspect access and exit areas and equipment	Perform scheduled inspection and maintenance of emergency lighting system	Perform scheduled inspection and maintenance of fire safety systems and components

264 72704 727	D.C.		34	34	
MAINTAIN ELECTRICAL SYSTEM COMPONENTS	Perform routine inspection of electrical systems and components	Maintain breakers (maximum of 240 volts)	Maintain fuses (maximum of 240 volts)	Maintain 120-volt electrical components and devices	
5075.0	5075.01	5075.02	5075.03	5075.04	
MAINTAIN DOMESTIC APPLIANCES	Inspect and maintain domestic electrical appliances	Set up, level and test appliances			
5076.0	5076.01	5076.02			
		T	T	T	,
MAINTAIN LOW- PRESSURE AND HOT WATER BOILERS AND COMPONENTS	Monitor and record gauge readings	Troubleshoot boiler systems and components	Maintain low- pressure heat exchangers	Maintain controls and thermostats	Inspect pumps and motors
5077.0	5077.01	5077.02	5077.03	5077.04	5077.05
	Maintain pumps and motors	Prepare for on-site inspection			
	5077.06	5077.07			

MAINTAIN AIR CONDITIONING SYSTEM COMPONENTS	Open and unseal window or wall units	Maintain system components 5078.02	Monitor and record gauge readings	Inspect, clean and winterize cooling towers	Adjust and monitor chemical feeds and balances
	Test for refrigerant leakage	Close and seal window or wall units	Prepare and assist in start-up and shut-down procedures		
	5078.06	5078.07	5078.08		
MAINTAIN VENTILATION SYSTEM COMPONENTS	Inspect and maintain ventilation systems	Check and clean duct work and grills	Inspect and maintain humidifier systems	Perform maintenance on fans	Maintain fume hood systems
5079.0	5079.01	5079.02	5079.03	5079.04	5079.05
	Coordinate certification of fume hoods 5079.06				
MAINTAIN PLUMBING	Locate defective areas of plumbing systems	Inspect water drainage system components	Perform routine maintenance on plumbing systems and components		
5080.0	5080.01	5080.02	5080.03		
MAINTAIN WATER TREATMENT SYSTEM COMPONENTS	Monitor and maintain chemical balance of water systems	Test and maintain components of water treatment systems			

MAINTAIN DOMESTIC LAUNDRY SYSTEMS	Test safety devices	Troubleshoot laundry systems and components	Maintain laundry components or parts		
5082.0	5082.01	5082.02	5082.03		
MAINTAIN BUILDING INTERIOR AND EXTERIOR	Conduct inspections of building envelope	Repair or replace interior and exterior doors	Repair or replace interior and exterior windows	Plan and estimate replacement quantities of paint and wall coverings	Prepare wall surfaces
5083.0	5083.01	5083.02	5083.03	5083.04	5083.05
	Apply paint	Apply wall coverings	Maintain ceilings	Maintain interior surfaces	Maintain wall appendages
	5083.06	5083.07	5083.08	5083.09	5083.10
	Maintain floor coverings	Perform general cleaning procedures	Maintain exterior brickwork, masonry and cladding	Maintain eaves trough and downspouts	Maintain overhead suspended equipment
	5083.11	5083.12	5083.13	5083.14	5083.15
PERFORM GROUNDS MAINTENANCE	Inspect grounds	Clean up grounds	Maintain grounds facilities	Maintain lawns, plants, trees, flora and shrubs	Inspect and maintain lawn and garden equipment
5084.0	5084.01	5084.02	5084.03	5084.04	5084.05
	Inspect, test and maintain irrigation systems	Inspect and maintain playground equipment			
	5084.06	5084.07			

MAINTAIN ROOFING	Access roof	Inspect inside and outside of roof	Perform roof maintenance		
5085.0	5085.01	5085.02	5085.03		
WELD USING ARC WELDING EQUIPMENT	Wear welding protective equipment	Plan and organize welding operations	Cut metal with oxyfuel equipment	Select and set up welding equipment	Prepare weld surfaces
5086.0	5086.01 Fillet weld	5086.02 Clean weld	5086.03 Store welding equipment and consumables	5086.04	5086.05
	5086.06	5086.07	5086.08		

PREFACE

This training standard was developed by the Workplace Training Branch of the Ministry of Training, Colleges and Universities (MTCU), in partnership with the Industry Committees and in consultation with representatives from the industry. This document is intended to be used by the apprentice, supervisor/trainer and sponsor/employer as a "blueprint" for training and as a prerequisite for completion and certification.

This training document becomes the apprentice's only record of workplace training performance.

The supervisor/trainer and apprentice are required to sign off on and date the skill following each successful acquisition, unless a skill is marked shaded (optional).

The care and maintenance of this training document are the joint responsibility of the apprentice and the sponsor/employer. By signing off on the skill, the supervisor/trainer and the apprentice are indicating that the apprentice has demonstrated competence in the skill. This training standard has been developed specifically for documenting the apprentice's acquisition of skills of the trade.

Please Note:

Apprenticeship Training and Curriculum Standards were developed by the Ministry of Training, Colleges and Universities (MTCU). As of April 8th, 2013, the Ontario College of Trades (College) has become responsible for the development and maintenance of these standards. The College is carrying over existing standards without any changes.

However, because the Apprenticeship Training and Curriculum Standards documents were developed under either the *Trades Qualification and Apprenticeship Act* (TQAA) or the *Apprenticeship and Certification Act, 1998* (ACA), the definitions contained in these documents may no longer be accurate and may not be reflective of the *Ontario College of Trades and Apprenticeship Act, 2009* (OCTAA) as the new trades legislation in the province. The College will update these definitions in the future.

Meanwhile, please refer to the College's website (<u>www.collegeoftrades.ca</u>) for the most accurate and up-to-date information about the College. For information on OCTAA and its regulations, please visit: <u>www.collegeoftrades.ca/about/legislation-and-regulations</u>.

DEFINITIONS

ACA

Apprenticeship and Certification Act, 1998

Certificate of Apprenticeship (C of A)

Certification issued to individuals who have demonstrated that they have completed an apprenticeship in Ontario

Certificate of Qualification (C of Q)

Certification issued to C of Q applicants who have achieved a passing grade on the certification exam for their trade

Competency Analysis Profile

A document that identifies the training needs of an individual trade and details the skills/skill sets that must be demonstrated

Competence

The ability of an individual to perform a skill repeatedly and without assistance in the workplace to the standard set out in the Training Standard or Schedule of Training

General Performance Objective (On-the-Job Skill Set)

Describes a set of skills that includes all performance objectives under that skill set

Industry Committee (IC) – Under the ACA and Provincial Advisory Committee (PAC) Under the TOAA

Under the ACA and TQAA, the Minister may appoint a provincial committee in any trade or group of trades to advise the Minister in matters relating to the establishment and operation of apprenticeship training programs and trades qualifications.

Journeyperson or Equivalent

A person who has acquired the knowledge and skills in a trade, occupation, or craft as attested to by a provincial or territorial authority

Mandatory

Status assigned to unshaded individual skills, skill sets, or general performance objectives that must be signed off on for the apprentice to complete the program

Optional

Status assigned to shaded individual skills, skills sets, or general performance objectives for which sign-off is not required for the apprentice to complete the program but that may be tested on an examination for certification

Sign-Off

Signature of the sponsor/employer of record or an individual to whom that sponsor or employer has delegated signing authority, indicating an apprentice's achievement of competence

Skill

Individual skill described in the Training Standard (note: does not mean the larger skill groups referred to in the Training Standard as Skill Sets, Training Units, or General Performance Objective, but the individual skills that make up those groups)

Skill Sets

Group of individual skills found in the Training Standard (may also be called Training Unit or General Performance Objective)

Skill Set Completion Form

Lists all skill sets and includes space for sign-off by sponsor/employer of record

Sponsor/Employer

A person who has entered into a registered training agreement under which the person is required to ensure that an individual is provided with workplace-based training in a trade, other occupation, or skill set as part of an apprenticeship program approved by the Director

Sponsor/Employer of Record

Refers to the sponsor or employer documented as the signatory to the current training agreement or contract. For sponsors/employers to be considered for the training of apprentices, they must identify that the workplace has qualified journeypersons or equivalent on site and can identify that the workplace has the tools, equipment, materials and processes that have been identified by Provincial Advisory Committees (PACs) or Industry Committees (ICs) as being required for the trade.

Supervisor

An individual who oversees the execution of a task or oversees the actions or work of others

Trainer

A qualified trainer in a compulsory trade is a journeyperson with a Certificate of Qualification or in a voluntary trade is an individual who is considered equivalent to a journeyperson with a Certificate of Qualification.

TQAA

Trades Qualification and Apprenticeship Act

Training Standard

A document that has been written in concise statements that describe how well an apprentice must perform each skill in order to become competent. By using the document, trainers will be able to ensure that the apprentice is developing skills detailed for the occupation.

IMPORTANT DIRECTIONS

For the Apprentice

- 1. All complete skills or skill sets must be signed and dated by both the apprentice and the sponsor/employer when either all terms of the contract have been completed or the apprentice leaves the employ of the employer.
- 2. It is the responsibility of the apprentice to inform the local Apprenticeship Client Services Office regarding the following changes:
 - change of sponsor/employer address
 - change of apprentice name or address
 - transfer to a new sponsor/employer
- 3. The Skill Set Completion Form must be completed and signed by the current sponsor/employer and presented to the local Apprenticeship Client Services Office at the fulfilment of all terms of a Contract of Apprenticeship/Training Agreement.
- 4. The Apprentice Completion Form with the Completed and Authorized Training Standard must be presented to the local Apprenticeship Client Services Unit.

For the Sponsor/Employer and Supervisor/Trainer

The Training Standard identifies skills required for this trade/occupation and its related training program.

This Training Standard has been written in concise statements that describe how an apprentice must perform each skill in order to become competent. Competence means being able to perform the task to the required standard.

By using this Training Standard, supervisors/trainers will be able to ensure that the apprentice is developing the skills detailed for the trade/occupation.

Supervisors/trainers and apprentices are required to sign off on and date the skills following each successful acquisition.

Sponsors/employers participating in this training program will be designated as the Signing Authority and are required to attest to successful achievement by signing the appropriate box included at the end of each skill set.

NOTICE/DECLARATION FOR COLLECTION OF PERSONAL INFORMATION

- 1. At any time during your apprenticeship training, you may be required to show this training standard to the Ministry of Training, Colleges and Universities (the Ministry). You will be required to disclose the signed Apprenticeship Completion form to the Ministry in order to complete your program. The Ministry will use your personal information to administer and finance Ontario's apprenticeship training system, including confirming your completion and issuing your certificate of apprenticeship.
- 2. The Ministry will disclose information about your program completion and your certificate of apprenticeship to the Ontario College of Trades, as it is necessary for the College to carry out its responsibilities.
- 3. Your personal information is collected, used and disclosed by the Ministry under the authority of the Ontario College of Trades and Apprenticeship Act, 2009.
- 4. Questions about the collection, use and disclosure of your personal information by the Ministry may be addressed to the:

Manager, Employment Ontario Contact Centre Ministry of Training, Colleges and Universities 33 Bloor St. E, 2nd floor, Toronto, Ontario M7A 2S3 Toll-free: 1-800-387-5656; Toronto: 416-326-5656

TTY: 1-866-533-6339 or 416-325-4084.

ROLES AND RESPONSIBILITIES OF THE APPRENTICE, SPONSOR/EMPLOYER, AND SUPERVISOR/TRAINER

Apprentice "Apprenticeship is a learning exercise."

- Practise safe work habits.
- Use your apprenticeship training standard as a journal to keep track of which skills you have achieved.
- Talk over your training plan with your Training Consultant, Employer, Union, or Sponsor.
- Know what tools are required for your trade and how to use them.
- Ask questions and keep asking.
- Talk to your employer about your training needs.
- Demonstrate enthusiasm and good work habits.
- Ensure that you and your supervisor/trainer sign off on the skill/skill sets on demonstration of competency.

Sponsor/Employer "Training is an investment."

- Demonstrate safe work habits.
- Attest to successful achievement by signing off on the skill/skills sets.
- Provide opportunities and time for the apprentice to learn the trade.
- Offer practical trade training experiences that cover all the skill sets.
- Foster work ethics that support training while minimizing productivity losses.
- Set out clear expectations, then recognize or reward performance excellence.
- Involve both the apprentice and the supervisor/trainer in developing the training plan.
- Use the Training Standard as a monitoring tool and part of regular performance evaluations.
- Select supervisors/trainers who have good communication skills and who work well with others.
- Encourage supervisors/trainers to take upgrading courses (Train the Trainer, Mentor Coach, etc.).
- Complete the Skill Set Completion Form once the apprentice has demonstrated competency in the training.
- Ensure that the apprentice always works under the direction of or has access to a qualified supervisor/trainer.
- Vary the apprentice's exposure to all the skills set out in the Training Standard.

Supervisor/Trainer

- Demonstrate safe work habits.
- Treat apprentices fairly and with respect.
- Use the Training Standard as a guide to evaluating competence in each skill area. By using the Training Standard, supervisors/trainers will be able to ensure that the apprentice is developing skills detailed for the trade/occupation.
- Review the Training Standard with the apprentice and develop a training plan.
- Respond fully to all questions.
- Be patient. Explain what is to be done, then show how it is done and then let the apprentice demonstrate the task.
- Provide continual feedback.
- Sign off on individual skills/skill sets once the apprentice demonstrates competence in the skill.

Suggestions for Assessing the Progress of the Apprentice in the Workplace

- Use informal daily observation.
- Provide constructive feedback to build confidence.
- Allow the supervisor/trainer time to teach and demonstrate the skills.
- Take prompt action whenever problems occur.
- Conduct regular performance reviews involving the apprentice, supervisor/trainer and sponsor/employer.
- Use the Training Standard as the reference for establishing the competency of the apprentice.

NOTE ON SHADED PERFORMANCE OBJECTIVES AND SKILLS

- Shaded performance objectives and skill sets are optional. The shaded skills do not have to be demonstrated or signed off on for completion of the on-the-job component of the apprenticeship.
- The in-school curriculum learning outcomes will cover all the skill sets, both shaded and unshaded.
- The Certificate of Qualification examination will test the whole of the trade but not shaded performance skill sets.

5070.0 DEMONSTRATE SAFE WORKING PRACTICES AND PROCEDURES

GENERAL PERFORMANCE OBJECTIVE

Demonstrate safe working practices and procedures by complying with safety directives; wearing and maintaining personal protective equipment; practising good housekeeping; handling hazardous materials; practising fire-safety procedures; confirming worksite status; working within safe physical limits; inspecting elevating devices and material-handling equipment; working on equipment in elevated positions; and applying lockout and tag procedures and de-energizing procedures so that all applicable codes, regulations and applicable company policies are followed.

PERFORMANCE OBJECTIVES

SKILLS

5070.01

Comply with safety directives provided in legislation and regulations, including the Occupational Health and Safety Act (OHSA), the Workers' Compensation Act (WCA), the Environmental Protection Act (EPA), Boilers and Pressure Vessels Regulation (BPVR) of the Technical Standards and Safety Act, the Dangerous Goods Transportation Act (DGTA), the Workplace Hazardous Materials Information System (WHMIS), the Ontario Fire Code (OFC) and the Ontario Electrical Code, on construction, industrial, commercial and residential sites by identifying appropriate legislation and applying it to work procedures.

5071.0 USE AND MAINTAIN TOOLS, EQUIPMENT AND DEVICES

GENERAL PERFORMANCE OBJECTIVE

Use and maintain hand tools, power tools, measuring devices and testing and troubleshooting devices by using and maintaining trade-specific hand tools and associated equipment, power tools and associated equipment and supplies, measuring devices and testing and troubleshooting devices for electrical, plumbing, mechanical and fuel systems so that tools, equipment and devices are used for their intended purpose and are maintained at a standard of repair that is safe and functionally effective.

PERFORMANCE OBJECTIVES

SKILLS

5071.01

Use and maintain hand tools and associated equipment including hammers, chisels, wrenches, screwdrivers, pliers, hack saws and oilers by determining the correct tool for the job, selecting the tool and required components, documenting use in a tool-control system, setting up the tool, testing it, applying it to the job, monitoring and adjusting its operation, identifying deficiencies, replacing consumables and repairing or replacing user-maintainable parts so that tools are used for their intended purpose and are maintained at a standard of repair that is safe and functionally effective.

5072.0 EMPLOY JOB INFORMATION RESOURCES

GENERAL PERFORMANCE OBJECTIVE

Employ job information resources by determining in-house operation and maintenance requirements; interpreting electrical, mechanical and structural blueprints; communicating with co-workers; writing reports; maintaining service documents; and preparing work orders so that the information needed to plan and complete maintenance activities is made available and used.

PERFORMANCE OBJECTIVES

SKILLS

5072.01

Determine in-house operation and maintenance requirements by researching code books, manuals, manufacturers' specifications and recommendations, warranties, preventive maintenance schedule sheets and government regulations; identifying system and component types, capacities, tolerances and limitations, safety procedures, replacement procedures and in-house maintenance and licensing limitations; updating equipment and parts inventory and maintenance inspection routines; sourcing required materials, tools and equipment; and locating any other necessary information to complete the job in accordance with all codes and company procedures.

5073.0 PERFORM PREVENTIVE MAINTENANCE

GENERAL PERFORMANCE OBJECTIVE

Perform preventive maintenance by providing administrative support to preventive maintenance duties; performing scheduled preventive maintenance procedures; and coordinating outside contract inspections and corrective work in accordance with company policy, government regulations and codes.

PERFORMANCE OBJECTIVES

SKILLS

Provide administrative support to preventive maintenance duties by identifying scheduling dates, times, frequency and location; completing inspect lists:

scheduling dates, times, frequency and location; completing inspect lists; determining related trade and equipment requirements; maintaining completed inspections documentation; completing work orders; identifying and documenting related corrective work; determining in-house maintenance limitations; shutting down equipment; and coordinating the required workforce, qualified personnel, materials, parts and tools, in accordance with government regulations, company procedures, job specifications and preventive maintenance schedule.

5074.0 INSPECT FIRE SAFETY EQUIPMENT

GENERAL PERFORMANCE OBJECTIVE

Inspect fire safety equipment by performing inspection of fire safety systems and equipment; inspecting access and exit areas and equipment; and performing scheduled inspections and maintenance of emergency lighting systems and fire safety systems and components in accordance with the OFC.

PERFORMANCE OBJECTIVES

SKILLS

5074.01	Inspect fire safety systems and equipment by checking containers, cabinets,
	gauges, emergency lighting, panels, sprinkler heads, fire extinguishers, hoses,
	standpipes, Siamese connectors, batteries, pull stations, door-holding devices, fire
	phones, P.A. systems, alarms, bells, detectors and information postings, so that all
	system components are functional and that all forms and documents are completed,
	in accordance with company procedures and the OFC.

5075.0 MAINTAIN ELECTRICAL SYSTEM COMPONENTS

GENERAL PERFORMANCE OBJECTIVE

Maintain electrical system components by performing routine inspection of electrical system and components; maintaining breakers and fuses (maximum 240 volts); and maintaining 120-volt, single-phase electrical components and devices in accordance with company procedures or practices, the Canadian Standards Association (CSA) and preventive maintenance programs.

PERFORMANCE OBJECTIVES

5075.01

Perform routine inspection of electrical systems and components using appropriate tools and measuring or testing equipment including multimeter, voltage tester, fuse-plug pullers, wire strippers and insulated hand tools in order to determine maintenance requirements, in accordance with company procedures or practices, manufacturers' specifications and recommendations, the CSA and preventive maintenance program.

5084.0 PERFORM GROUNDS MAINTENANCE

GENERAL PERFORMANCE OBJECTIVE

Perform grounds maintenance by conducting a visual and physical inspection of grounds; cleaning up grounds; maintaining grounds facilities, lawn and garden equipment; maintaining lawns, plants, trees, flora and shrubs; inspecting, testing and maintaining irrigation systems and inspecting and maintaining playground equipment in accordance with manufacturers' instructions and company practices or policies.

PERFORMANCE OBJECTIVES

SKILLS

5084.01

Inspect grounds by conducting a visual and physical inspection; assessing the condition of lawns, shrubs, flower beds, trees and gardens; assessing the state of repair of curbs, paving stones, brickwork, fencing, lighting and signage; and documenting and reporting all grounds maintenance requiring further action, in accordance with manufacturers' instructions and company practices or policies.

5086.0 WELD USING ARC WELDING EQUIPMENT

GENERAL PERFORMANCE OBJECTIVE

Weld using arc welding equipment by wearing welding protective equipment; planning and organizing welding operations; cutting metal with oxyfuel equipment; selecting and setting up welding equipment and consumables; preparing weld surfaces; fillet welding; cleaning welds and storing welding equipment in accordance with CSA standards and company procedures or practices.

PERFORMANCE OBJECTIVES

<u>SKILLS</u>			
5086.01	Wear welding protective equipment including eye protection, welding shield, gloves and protective clothing so that fit is correct and protection to the wearer is optimum for the task being performed in compliance with company procedures or practices and the OHSA.
